**A**
adhesion
  *Plasmodium* parasites 329ff
adverse reactions
  ivermectin 448ff
AIDS
  *Leishmania* and 257ff
  *Toxoplasma gondii* infection in 1ff
alveolar cydatid cyst 297ff
amoebiasis 198ff
  differentiation of *Entamoeba histolytica/dispar* infections 406ff
  vaccine development 7ff, 334
amphids
  in parasitic nematodes 187ff
amyloidosis
  AA 297ff
  reactive, pathogenesis 297ff
animal models
  cerebral babesiosis 203ff
  reactive amyloidosis 297ff
  *Schistosoma japonica* infection 132ff, (L) 164
annexin V (L) 122
  binding to mouse erythrocytes (L) 292
*Anopheles*
  entomological monitoring 127ff
*Anopheles gambiae*
  Limburger cheese as attractant 159ff
antibody
  *Giardia* 140ff
anticoagulants
  in vector arthropods 430ff
antigen detection
  differentiation of *Entamoeba histolytica/dispar* infections 406ff
antigenic variation
  *Giardia* 140ff
anthelmintic chemotherapy
  ivermectin (L) 164
Apicomplexa
  rhoptry organelles 308ff
arachidonic acid
  ticks 388ff
artemisinin
  as antimalarial 79ff
artificial feeding
  ixodid ticks 272ff
*Ascaris*
  neuropeptides 343ff
ATP-binding cassette 135ff
autoimmunity
  Chagas heart disease 396ff, 415ff

**B**
*Babesia bovis* 203ff
*Babesia equi* infection
  control 195ff
babesiosis, cerebral
  mouse model 203ff
*Bacillus*
  mosquitocidal toxins 175ff
bednets (L) 410
  and *Plasmodium* transmissibility 89ff
Bilharzia *see* schistosomiasis
biological tags
  cephalopod, marine parasites as 324ff
bradyzoites
  *Toxoplasma gondii* 30ff
*Brugia pahangi*
  stage-specific gene expression 418ff

**C**
*Caenorhabditis elegans*
  amphids, ultrastructure 187ff
  as parasite model 373ff
calcium ion
  in cell invasion 61ff
  intracellular, host cell modulation of 145ff
canine leishmaniasis (L) 412
cardiomyopathies
  Chagas heart disease 415ff
cathepsin G
  haemoglobin digestion (L) 165
cathepsin L
  haemoglobin digestion (L) 165
cell cycle
  malaria 442ff
cell invasion
  calcium ions in 61ff
cephalopods
  marine parasites as biological tags 324ff
*Cestoda*
  molecular phylogeny 66ff
Chagas disease
  autoimmunity 396ff
  population genetics and control 169ff
  tissue lesions in absence of *Trypanosoma cruzi* 414ff
  heart disease, chronic 415ff
cheese, Limburger
  as attractant for *Anopheles gambiae* 159ff
chemosensory neurons
  nematode amphids 187ff
chemotaxis
  *Leishmania* exploitation of complement system 445ff
chemotherapy, combination
  malaria 399ff
chitinases, filarial
  protein motifs (L) 42, (L) 291
chloroquine
  resistance 135ff
chromosomal distribution
  *Trypanosoma cruzi* 280ff
chromosomes
  karyotype variability in *Trypanosoma cruzi* 108ff
chronic infection
  Chagas heart disease 415ff
codon usage
  rare, in *E. coli* (L) 124
coevolution
  helminths 337ff
cognition
  schistosomiasis 218ff
combination chemotherapy
  malaria 399ff
community ecology 367ff
complement system
  exploitation by *Leishmania* 444ff
compound recovery
  *Plasmodium falciparum* proteinases 413
control programmes
  intestinal parasites 212ff
  lymphatic filariasis 240ff
  malaria 236ff, 332ff, 455ff
  schistosomiasis 333ff
  in USA and Japan 332ff
coproantigen
  *Giardia* (L) 412
cornea
  onchocercal keratitis 261ff
*Cowdria ruminantium* infection
  epidemiology 402ff
*Crithidia*
  topoisomerases in 226ff
cryptosporidiosis
  pathogenesis 221ff
*Cryptosporidium*
  infection, and diarrhoea 221ff
  water-borne 286ff
cysteine proteinases
  in haemoglobin digestion (L) 125
cysticercosis
  and *Taenia asiatica* (L) 123
cytoadherence
  *Plasmodium* parasites 329ff
cytocentrifugation
  detection of *Plasmodium vivax* liver stages 451ff
cytokines
  HIV-modulatory 258
  *Cryptosporidium* infection 221ff
  onchocercal keratitis 261ff

**D**
dendrites
  nematode amphids 187ff
detection radius 372
diarrhoea
  in *Cryptosporidium* infection 221ff
diethylcarbamazine
  in lymphatic filariasis control 240ff
digital imaging microscopy
  in mosquito genomics 91ff
disease association
  malaria and onchocerciasis 179ff
DNA
  interspersed elements 279ff
  kinetoplast 226ff
  organelle 357ff
  plastid-like 357ff
  repetitive sequences 279ff
  replication 357ff
  satellite 279ff
DNA polymerases
  in *Plasmodium* 151ff
drug discovery
  *Plasmodium falciparum* proteinases 413
drug resistance
  malaria 135ff, 399ff
  praziquantel 316ff

**E**
echinococcosis 295
*Echinococcus*
  taxonomy 486ff
Egypt, ancient
  schistosomiasis (L) 167, 253ff
*Eimeria*
  iscom vaccines 321
electrophysiology
  nematode neuropeptides 343ff
electrophoration
  in *Entamoeba histolytica* transfection studies 198ff
ELISA (L) 412
endemic stability
  epidemiology of heartwater 402ff
endopeptidases
  in haemoglobin digestion (L) 125
endoperoxides
  antimalarial, second-generation 79ff
*Entamoeba*
  differentiation of *E. histolytica/dispar* infections 406ff
*Entamoeba histolytica*
  DNA-mediated gene transfer 198ff
  vaccine 7ff
entomological monitoring
  large-scale vector-control interventions 127ff
eosinophils
  in chagasic tissue lesions 414ff
  infiltration
  staining (L) 250
epidemiology
  echinococcosis 295
  heartwater 402ff
  hydatidosis 295
  in USA and Japan 332ff
  schistosomiasis (L) 167, 215ff, 457ff
  *Taenia asiatica* (L) 123
  transmission intensity maps 455ff
epithelial permeability
  in *Cryptosporidium* infection 221ff
erythrocytes
  annexin V binding (L) 292
  *Plasmodium vivax* 20ff
*Escherichia coli*
  expression of potentially toxic genes (L) 124
Europe
  *Toxoplasma gondii* research in 1ff
evidence-based medicine 211ff
evolution
  parasitic diseases 96ff

**F**
factor X
  anticoagulants in vector arthropods 431ff
falcipain 413
filarial chitinases
  protein motifs (L) 42, (L) 291
filarial nematodes
  lymphatic, stage-specific gene expression 418ff
filariasis
  lymphatic *see* lymphatic filariasis
  stage-specific gene expression 418ff
  vaccine development 334
fire
  parasites and (L) 327
FISH digital imaging microscopy
  in mosquito genomics 91ff
fisheries assessment
  marine parasite tags 324ff
flagellum
  paraflagellar rod of Kinetoplastida 302ff
flatworms
  spliced leader *trans*-splicing 33ff
FMRFamide-related peptides 343ff
  helminths 372ff
  pharmacology 351ff
food-borne zoonoses 171ff
freshwater fish
  helminth species richness in 367ff

**G**
gastrointestinal tract
  reactive amyloidosis 297ff
gene expression
  *Entamoeba histolytica* 198ff
  rare codon use in *E. coli* (L) 124
  stage-specific 418ff
gene organization
  *Entamoeba histolytica* 198ff
genetic transformation
  malaria parasites 129ff
genetic variation
  helminths 337ff
genomic rearrangement
  schistosomes 283ff
*Giardia*
  coproantigen (L) 412
  diagnosis (L) 412
  immune response 140ff
glacier mummy, neolithic
  *Trichuris trichiura* eggs in 255ff
glomerulonephritis
  in parasitic infections 102ff
gp63 (*Leishmania* surface molecule) 444ff

**H**
habitat selection 371ff
haem
  synthesis in *Plasmodium* (L) 370, (L) 495
haematophagy 430ff
haemoglobin digestion, schistosome (L) 165
  asparaginyl endopeptidase Sm32 (L) 125
haemoparasitic infections
  immunodeficient mouse host 479ff
haemozoin
  identification and quantification 161ff, (L) 370
HDL particles
  as trypanosome-killing factor (L) 250
heartwater
  epidemiology 402ff
helminths
  animal models 132ff, (L) 164
  immunogenetics 337ff
  molecular biology 373ff
  selection 337ff
hepatic malaria
  detection by cytocentrifugation 451ff
hepatoma cells
  in culture of *Plasmodium vivax* liver stages 451ff
HIV infection
  *Leishmania* and 257ff
HLA
  and *Onchocerca volvulus* infection 179ff
hookworms
  in Americas 72ff
  paleoparasitology (L) 454
host cell invasion
  role of rhoptry organelles 308ff
host-finding 371ff
  nematode amphids 187ff
host-like sequences
  schistosomes 283ff
host–parasite interaction
  behavioural ecology 371ff
  echinococcosis 295
  helminths 337ff
  hydatidosis 295
  *Toxoplasma gondii* superantigen 362ff
host range 367ff
human immune response
  MSP-1 173ff, (L) 206
hydatidosis 295

**I**
immune regulation
  nitric oxide in malaria (L) 208
immunity
  *Giardia* 140ff
  pregnancy-associated hormones and 382ff
  resistance gene 381
  sex steroids and 382ff
  *see also* autoimmunity
immunocompetence 371ff
immunocytochemistry
  reactive amyloidosis 297ff
immunodeficiency
  lymphatic filariasis 267ff
immunodeficient mice
  hosts for haemoparasitic infections 479ff
immunodiagnosis
  *Giardia* 140ff
immunogenicity
  helminths 337ff
immunolocalization
  nematode neuropeptides 343ff
immunology
  echinococcosis 295
  hydatidosis 295
  resistance to *Ostertagia circumcincta* 438ff
immunomodulation
  helminths 337ff
immunopathology
  *Giardia* 140ff
insecticides
  mosquitocidal toxins 175ff
interferon gamma (IFN-γ)
  lymphatic filariasis 267ff
interleukin 4 (IL-4)
  lymphatic filariasis 267ff
Internet 85ff
intestinal epithelium
  in *Cryptosporidium* infection 221ff
intestinal parasites
  control programme 212ff
invasion
  role of calcium ions in 61ff
  role of rhoptry organelles 308ff
ion transport

in diarrhoea 221ff
irradiation hazards
matchbox technology (L) 328
iscoms
vaccine development 320ff
ivermectin
in strongyloidiasis control (L) 164
severe adverse reaction risks 448ff
ixodid ticks
artificial feeding 272ff
salivary prostaglandins 388ff

**K**

karyotype variability
*Trypanosoma cruzi* 108ff
keratitis
*Onchocerca* 261ff
kidney disease
and parasitic infections 102ff
Kinetoplastida
DNA 226ff
metabolic compartmentation 465ff
paraflagellar rod 302ff
topoisomerases in 226ff

**L**

large-scale treatment
adverse reaction to ivermectin treatment 448ff
lectin–parasite interactions 55ff
*Leishmania*
complement system exploitation 444ff
invasion, calcium ion role 61ff
and pathogenesis of HIV infection 257ff
topoisomerases in 226ff
*Leishmania infantum*
in canine urine and semen (L) 412
leishmaniasis
canine (L) 412
glomerulonephritis in 103ff
and HIV infection 257ff
vaccine development 334
'Lever ek Mikrob' programme 212ff
Limburger cheese
as attractant for *Anopheles gambiae* 159ff
LINE nucleotide elements 279ff
schistosomes 285
liver malaria *see* hepatic malaria
loiasis
adverse reaction to ivermectin treatment 448ff
lymphatic filariasis
diethylcarbamazine treatment 240ff
mouse studies 267ff

**M**

macrophage complement receptors 445ff
major histocompatibility complex (MHC)
malaria and onchocerciasis 179ff
resistance to *Ostertagia circumcincta* 439ff
malaria
γδ T cells in 200ff
annexin V binding to mouse erythrocytes (L) 292
calcium ion role 61ff
and cell cycle 442ff
combination chemotherapy 399ff
control 332ff
DNA replication in parasite 151ff
drug resistance 135ff, 399ff
enhanced susceptibility during pregnancy 4ff, (L) 41
entomological monitoring 127ff
epidemiology 332ff
glomerulonephritis in 102ff
haemozoin identification and quantification 161ff, (L) 370
hepatic, detection by cytocentrifugation 451ff
'infant conversion rate' (L) 410
inoculation and mortality in Congo (L) 206ff
models for 378ff
morbidity 236ff
mortality 236ff
mosquitocidal toxins 175ff
multidrug resistance 135ff
nitric oxide in (L) 208
organelle DNAs 357ff
parasitized erythrocytes, phosphatidylserine expression (L) 122
PCR diagnosis (L) 410
pigment *see* haemozoin
quantification of transmissibility (L) 495
rare codon use in *E. coli* (L) 124
reliability of measurements (L) 410
second-generation endoperoxides 79ff
severe, molecular aspects 329ff
strain theory 88ff
TNF-mediated phenomena (L) 290
transfection of parasites 129ff
transmission 74ff, (L) 82ff, 263ff, (L) 410
transmission intensity maps 455ff
vaccine development 20ff, 131, 334ff
marine parasites
as cephalopod biological tags 324ff
mast cell staining (L) 250
mefloquine
resistance 137ff
merozoite
*Plasmodium vivax* 20ff
metabolic compartmentation
Kinetoplastida 465ff
metazoa
spliced leader *trans*-splicing 33ff
MHC *see* major histocompatibility complex
mitochondria
organelle DNA 357ff
models, animal *see* animal models
molecular mimicry
in Chagas disease cardiomyopathy 396ff
molecular phylogeny
Platyhelminthes 66ff
molluscicides 156ff
monkeys
malaria in 379ff
Monogenea
molecular phylogeny 66ff
mosquitocidal toxins 175ff
mosquitoes
entomological monitoring 127ff
genomics, FISH digital imaging microscopy in 91ff
larvae, mosquitocidal toxins 175ff
mouse erythrocytes
annexin V binding (L) 292
MSP-1
human immune response (L) 206, 173ff
multidrug resistance (MDR)
malaria 135ff
multigene families
rhoptry proteins 313ff
mummies, schistosomiasis in
Ancient Egypt (L) 167, 253ff
neolithic glacier 255ff
myoactivity
nematode neuropeptides 351ff
myocardial sections
Chagas heart disease 415

**N**

nematodes
amphids in 187ff
filarial *see* filarial nematodes
FMRFamide-related peptides 351ff
lymphatic filariasis *see* lymphatic filariasis
molecular biology 373ff
neuropeptides 343ff
resistance to *Ostertagia circumcincta* 438ff
sperm 425ff
spliced leader *trans*-splicing 33ff
neolithic glacier mummy
*Trichuris trichiura* eggs in 255ff
neuropeptides
nematode 343ff, 351ff

**O**

*Oestrus ovis* larvae infection (L) 250
*Onchocerca*
keratitis 261ff
*Onchocerca volvulus* infection
and HLA 179ff
onchocerciasis
adverse reaction to ivermectin treatment 448ff
organelle DNAs 357ff
*Ostertagia circumcincta*
resistance in lambs 438ff

**P**

P-glycoprotein
ATP-binding cassette 135ff
paleohelminthology
*Trichuris trichiura* 253ff
paleoparasitology
hookworms (L) 454
schistosomiasis in Egyptian mummies (L) 167, 253ff
*Trichuris trichiura* eggs in neolithic glacier mummy 255ff
paraflagellar rod
Kinetoplastida 302ff
paramagnetic particles
annexin V binding (L) 292
parasite vaccines *see* vaccine development
parasitic diseases
evolution of 96ff
parasitic infection
glomerulonephritis in 102ff
parasitic manipulation 371ff

parasitized erythrocytes
phosphatidylserine expression on (L) 122
path analysis 367ff
PCNA inhibitors 153ff
phagocytosis
*Leishmania* 444ff
pharmacodynamics
malaria combination chemotherapy 399ff
phosphatidylserine expression
on malaria-parasitized erythrocytes (L) 122
phospholipid asymmetry (L) 122
phylogeny
host–parasite interactions 371ff
pig
host model for *Schistosoma japonicum* infection 132ff, (L) 164
plasmepsin 413
*Plasmodium*
digestive vacuole and drug choice (L) 83
DNA replication 151ff
haemozoin identification and quantification (L) 370
malariological measurements (L) 410
*Plasmodium chabaudi*
infection, nitric oxide in (L) 208
*Plasmodium falciparum*
ATP-binding cassette 135ff
bednets' influence on transmissibility 89ff
control 236ff
*de novo* haem synthesis (L) 495
haemozoin identification and quantification 161ff
innoculation and mortality in Congo (L) 206ff
invasion, calcium ion role 61ff
proteinases 413
quantification of transmissibility (L) 495
rare codon use in *E. coli* (L) 124
sequestration of red blood cells (L) 84
transmission dynamics (L) 82ff, 74ff
*Plasmodium falciparum* infection
annexin V binding (L) 292
and HLA 179ff
iscom vaccines 321
and mouse models 203ff
nitric oxide in (L) 208
transfection 129ff
*see also* malaria
*Plasmodium vivax* 20ff
liver stages, detection by cytocentrifugation 451ff
malaria vaccine development 20ff
plastid-like DNA 357ff
Platyhelminthes
molecular phylogenetics 66ff
ploidy
karyotype variability in *Trypanosoma cruzi* 108ff
Pneumocystis research
*in vitro* systems 245ff
polymerase chain reaction (PCR)
Chagas heart disease 415
malariological measurements (L) 410
reverse transcription followed by (RT-PCR) 419ff
polyparasitism 219
population genetics
Triatominae 169ff
praziquantel 14ff
resistance 316ff
pregnancy
enhanced susceptibility to malaria during 4ff, (L) 41
haemozoin identification and quantification 161ff
pregnancy-associated hormones
and immunity to parasitic infection 382ff
procyclin–VSG switch 47ff
prostaglandins
tick 388ff
proteinase inhibitors 413
proteinases
*Plasmodium falciparum* 413
proteins, parasite
ricin labelling 492ff

**R**

radiation hazards
matchbox technology (L) 328
randomized controlled trial 211ff
recombinant antigen
*Entamoeba histolytica* 7ff
red blood cells
babesiosis 203ff
severe malaria 329ff
replication, DNA
asynchronous 442ff
in *Plasmodium* 151ff
reservoir host
schistosomiasis 132ff, (L) 164
resistance *see* drug resistance
reticulocyte
*Plasmodium vivax* 20ff
retrotransposon
non-LTR 280ff
*Rhodnius prolixus*
population genetics and control 169ff
rhoptry organelles
Apicomplexa 308ff
biogenesis 309ff
ricin
intercellular parasite protein labelling 492ff
tRNA
rare codon use in *E. coli* (L) 124
rosetting
*Plasmodium* parasites 329ff
RT-PCR
cDNA library construction 419ff

**S**

salivary glands
vector arthropod anticoagulants 430ff
salivary prostaglandins
ticks 388ff
sampling effort 367ff
*Schistosoma japonicum*
pig as host model 132ff, (L) 164
*Schistosoma mansoni*
praziquantel resistance 316ff
schistosomes 460ff
and serpins 119ff
asparaginyl endopeptidase Sm32 (L) 125
genome 283ff, 461
haemoglobin digestion (L) 165
immunity to (L) 166
mating behaviour 231ff
membrane biology 460
praziquantel resistance 316ff
schistosomiasis
control 333ff
epidemiology 215ff, 253ff, 333ff
glomerulonephritis in 102ff
immunoepidemiology 461
molluscicides 156ff
paleopathology in Egyptian mummies (L) 167
pig as host model 132ff, (L) 164
ultrasonography 215ff
vaccine development 334, 457ff, 461ff
worm burdens in 115ff
schizogony
malaria cell cycle 442ff
schizont
*Plasmodium vivax* 451ff
strongyloidiasis control (L) 164
SCID mice
cerebral babesiosis 203ff
hosts for haemoparasitic infections 479ff
selection
helminths 337ff
sensillum
nematode amphids 187ff
sequestration (L) 84
*Plasmodium* parasites 329ff
serpins
schistosomes and 119ff
sex steroids
and immunity to parasitic infection 382ff
sheep
*Ostertagia circumcincta* resistance 438ff
signal transduction
in leishmaniasis 258ff
SINE nucleotide elements 279ff
sleeping sickness (L) 40, (L) 41
species-area curves 367ff
species concepts 489
species richness 367ff
spliced leader *trans*-splicing 33ff
sporozoite
*Plasmodium vivax* 451ff
strain theory (L) 410
*Strongyloides stercoralis*
amphids in 187ff
strongyloidiasis
effective control (L) 164
susceptibility genes
HLA factors 179ff
syncytium
malaria cell cycle 442ff
systematic review of tropical medicine 211ff

**T**

T cells
in Chagas disease cardiomyopathy 396ff
γδ T cells in malaria infection 200ff
*Toxoplasma gondii* superantigen 362ff
T helper cells
lymphatic filariasis 267ff
onchocercal keratitis 261ff

tachyzoites
*Toxoplasma gondii* 30ff
*Taenia asiatica*
as distinct species (L) 123
*Taenia saginata* (L) 123
*Taenia solium* (L) 123
Tanzania
strongyloidiasis control (L) 164
taxonomy
*Echinococcus* 486ff
*Taenia asiatica* (L) 123
telomere
schistosomes 283ff
*Theileria parva*
transmission 272ff
thrombin
anticoagulants in vector arthropods 431ff
tick-borne diseases
epidemiology 402ff
pathogen transmission 472ff
ticks
anticoagulants 430ff, 435
co-feeding 472ff
salivary prostaglandins 388ff
tolerance
lymphatic filariasis 270
topoisomerase
inhibitors 229ff
in kinetoplastids 226ff
